CV - Jeremy B. Hume

Email: jeremybhume@gmail.com

Nationality: Canadian, Age: 26

Education

PhD, Mathematics

September 2021 - Present
University of Glasgow (Supervisor: Xin Li)

(Defending Summer 2024)

MSc, Mathematics September 2019 - August 2021

University of Victoria (Supervisor: Ian F. Putnam)

H.BSc, Mathematics September 2015 - May 2019

University of Toronto

Research Interests

 C^* -algebras, K-theory, groupoids and dynamical systems.

Recent Projects

KK-duality for self-similar groupoid actions on graphs

arxiv:2302.03989 (submitted). Joint with Brownlowe et al. We prove that two naturally associated C^* -algebras to a regular and contracting self-similar groupoid are Spanier-Whitehead dual (in KK-theory) to each other by showing they are strongly Morita equivalent to the stable and unstable Ruelle C^* -algebras of a Smale space arising from the self-similar limit space.

The K-theory of the C^* -algebras associated to a rational function

arxiv:2307.13420. We compute the K-theory of the three C^* -algebras associated to a rational function, thought of as a dynamical system acting on its Julia set, Fatou set, or the entire Riemann sphere. Our results yield new dynamical invariants for rational functions and a C^* -algebraic formulation of the Density of Hyperbolicity Conjecture for quadratic polynomials.

Renormalization procedures for C^* -algebras

(MSc. Thesis) (http://hdl.handle.net/1828/13285). We introduce renormalization procedures for C^* -algebras, in analogy to renormalization procedures for families of dynamical systems. We prove a C^* -analog to Masur's unique ergodicity criterion for flat surfaces and apply this criterion to show a variety of C^* -algebras have unique trace.

Dynamical covers

(In preparation). Joint with Kevin Brix and Xin Li. To a non-invertible dynamical system we construct two covers of it by better behaved systems, generalizing the Krieger and Fischer covers of a sub-shift. We show these covers are functorial, have universal properties and study the relationship between properties of the original system and properties of the cover.

Recent Invited and Contributed Talks

NSeaG24, Odense, Denmark (Invited talk: TBA)

YMC*A 2023, Leuven, Belgium August 2023

(Contributed talk: The K-theory of a rational function)

Algebra, Geometry and C^* -algebras, ICMS, Edinburgh, Scotland

June 2023

(Invited talk: The K-theory of a rational function)

Analysis seminar University of Waterloo, Canada (Invited talk: The K-theory of a rational function)

January 2023

Organizing

Analysis working seminar, University of Glasgow, Scotland

September 2022 - April 2023

I organized with two fellow PhD students a weekly seminar for members of the analysis department and visiting scholars to present topics related to their research.

YMC*A 2024, University of Glasgow

 $August\ 2024$

I am leading the organizing committee for "Young Mathematicians in C^* -algebras", which is an international conference designed for early career researchers working in the field of operator algebras. Expected number of participants is 150.

Teaching

Complex analysis tutorial, University of Glasgow

Winter 2021

I led the 4^{th} year honours complex analysis tutorial where I taught (50 minutes each week) supplemental material and went through problem set excercises carefully with students.

Teichmüller theory seminar, University of Victoria, Canada

Fall 2019

I hosted a Teichmüller theory seminar at the University of Victoria and gave two one-hour lectures each week.

Calculus, Toronto, Canada

 $July\ 2019$

I taught an approximately 100-hour-long course on high-school level calculus to an individual through Forest Hill Tutoring Company in Toronto.

Awards and Scholarships

British Columbia Graduate Scholarship \$15 000 CAD	2019
University of Victoria Graduate Award \$4872 CAD	2019
Margaret Ronald Taylor & Thomas Paxton Taylor Scholarship \$1414 CAD	2019
Dean's List (University of Toronto)	2016, 2017, 2018
F Ray Irwin Scholarship \$1000 CAD	2018
Regents In-Course Scholarship \$1000 CAD	2017
Dr John Benjamin Gullen Scholarship \$1000 CAD	2016
President's Entrance Scholarship \$2000 CAD	2015
